## **System Failure Caused by Unauthorized Access to AGC's U.S. Subsidiary**

On December 15, 2023 (Japan time), we confirmed that our subsidiary AGC Automotive Americas (headquartered in Michigan, USA) received unauthorized access to its internal server by a third party.

Details are under investigation, but the following is what is known at this time.

### **1. Incident**

AGC Automotive Americas, a company that primarily produces automotive glass, received unauthorized access to its systems from an outside party. Currently, some of the U.S. subsidiary's systems have been disrupted, affecting its production and shipments.

### **2. Impact of the Incident**

The cause and details of the damage are under investigation.

### **3. Future Actions**

We will make further announcements as soon as the extent of damage and impact is known.
