

AGC GROUP 2008

Linking the Future

“Look Beyond”

Linking the Future

AGC links people, technologies, and products with the future. For over a century, Asahi Glass Company, Limited (AGC) has continually linked together its extensive strengths. These strengths include its continuously refined core technologies in glass and fluorine chemistry, the powers derived from the diversity of each individual employee making up the AGC Group, and the diverse lineup of products that provide abundant value to customers. From the past to the present and looking toward the future, AGC will continue to link together all its strengths.

AGC Group Vision

“Look Beyond”

We, the AGC Group, “Look Beyond” to make the world a brighter place.

As a global materials and components supplier, based on our core technologies in glass, fluorine chemistry and their related fields, we will continue to:

“Look Beyond” ... Anticipate and envision the future,

“Look Beyond” ... Have perspectives beyond our own fields of expertise and

“Look Beyond” ... Pursue innovations, not becoming complacent with the status quo.

By “Looking Beyond,” we will continue to create value worldwide, demonstrating the vast potential of the Group’s entire organization.

Our Shared Values

Our four Shared Values are to be adopted and followed by all members of the Group and are of the foremost importance in accomplishing Our Mission. These Shared Values, described below, will serve as the basis for every judgment we make and action we take collectively and individually.

■ Innovation & Operational Excellence

We will continuously pursue innovations in technology, products, services, business models and human resources. We will continuously improve our operations for maximum efficiency and quality in every activity and at all times strive for the highest possible standard of performance.

■ Diversity

We will respect individuals with different cultures, capabilities and personalities, and our global management will operate without regard to nationality, gender or background.

■ Environment

We, as good global citizens, will shoulder the responsibility to contribute to a sustainable society in harmony with nature.

■ Integrity

We will build open and fair relationships with all of our stakeholders based on the highest ethical standards.

Linking the Future

Through unceasing reform and innovation, we will accelerate our global growth strategy and even more thoroughly implement global management.

The logo for AGC, consisting of the letters 'A', 'G', and 'C' in a bold, blue, sans-serif font. The letter 'G' has a small red triangle pointing to the right, integrated into its design.

One Group, One Name

On the occasion of Asahi Glass Company's 100th anniversary in September 2007, we adopted "AGC" as the unified corporate brand for the entire AGC Group. Accordingly, each Group company, including overseas companies, incorporated "AGC" in their legal names.

By designating AGC as a unified corporate brand globally, we intend to strengthen the sense of community and cooperation among AGC Group employees while clearly communicating the AGC Group's broad-ranging business domains to stakeholders in an easy-to-understand manner. Through such efforts, we will accelerate our global growth strategy.
