AGC Establishes “AGC Group Social Contribution Basic Policy”

AGC Asahi Glass Co., Ltd.

AGC (Asahi Glass Co., Ltd.; Head Office: Tokyo; President & CEO: Kazuhiko Ishimura) established “AGC Group Social Contribution Basic Policy”. This policy explicitly states the AGC Group’s view concerning social contribution activities. The AGC Group will further press ahead with its social contribution activities with the understanding of our stakeholders.

The AGC Group have been carrying out various social contribution activities for making affluent society, as corporate citizen having responsibility to live together with society. Above all, Blue Planet Prize is well recognized widely, as an international environmental award. This prize has been giving by Asahi Glass Foundation, which was founded in 1933. AGC also carried out numerous activities in our groups, such as Glass Power Campaign (in Japan), which donated anti-disaster glass to more than 20 evacuation centers all over Japan. We have also been conducting tree-planting activities (in Japan and Thailand), given support to schools including repairing and extending school buildings (in Thailand), given support to an orphanage (in South Korea), provided a scholarship for more than 50 years through the Asahi Glass Scholarship Foundation and made monetary donations for disaster victims.

In order to forge further ahead with the social contribution activities that we have been involved in, we believe that it is necessary to win the greater understanding of our stakeholders including customers, shareholders and investors, employees, business partners and local communities about these activities. Therefore, the AGC Group established the “AGC Group Social Contribution Basic Policy” and designated “Support for the next generation,” “Harmony with local communities” and “Natural environment conservation” as three priority areas.

< AGC Group Social Contribution Basic Policy >

In its AGC Group Charter of Corporate Behavior, the AGC Group declares it will “strive to be a trusted corporate citizen, fulfilling its responsibilities to the communities in which it does business.” To achieve this, we conduct social contribution activities in three priority areas.

Priority areas

■ **Support for the next generation**

We, as a creator of future value, support the development of children, who will carry the future, helping them to live out their dreams.

■ **Harmony with local communities**

We, as a member of the communities in which we operate, contribute to their sustainable development.

■ **Natural environment conservation**

We, as a global enterprise, contribute to the solution of global environmental problems.

AGC will conduct social contribution activities more proactively based on this basic policy.
